

# IPADS

## iPads for 2027

At Urangan State High School, we believe iPads are more than just screens - they are powerful tools for enhancing creativity, collaboration, and personalised learning. With access to a wide range of educational apps and resources, students develop digital literacy and future-ready skills that prepare them for success.

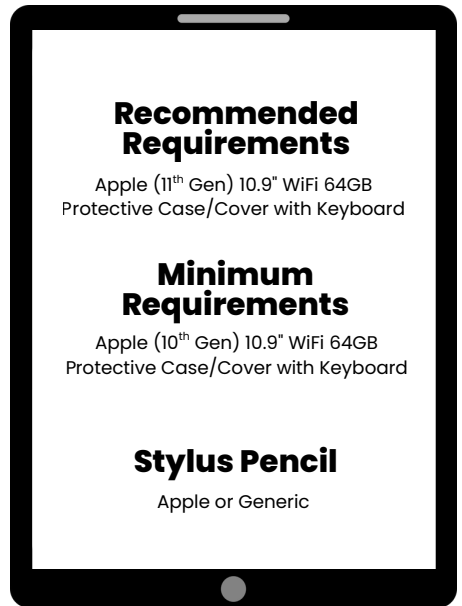

By **Working Together to Learn**, we ensure students use technology effectively, with clear policies in place to keep iPads focused on research, assignments, and class projects - not social media or gaming.

As partners in your child's learning journey, we encourage you to explore educational apps together, to review classwork regularly, and establish healthy screen-time boundaries.

Students must abide by the standards in the school's Student Code of Conduct and Acceptable Use of the ICT agreement.

Together, we can empower students to build responsible digital habits and unlock the full potential of iPads for innovative, focused learning, making them:

**Curious Learners, Creative Thinkers and Connected Humans**

## Insurance

We strongly recommend that all personal electronic devices are insured against accidental damage, loss and theft. You can either:

- Include the iPad on your home and contents insurance policy
- Purchase Apple Care Plus or Accidental Damage Protection at time of purchase
- Contact an insurer that offers specific student device cover products.

## Forms to fill in?

Please complete the BYO iPad Agreement.

## Who can I contact if I have a question?
