Connecting to the Telstra 3G Broadband
It is important to remember that the Telstra 3G Internet connection is filtered as High. This means social media websites such as Facebook and YouTube cannot be accessed through this connection.

1. Please Log into your tablet.

2. Go to the Desktop view mode (where your desktop icons are).

3. From the bottom right of the task bar, right click (or hold your finger down right click) on the Telstra 3G Graph icon (circled yellow in the below image).

4. A new popup will come up with a connect option as per below. Select ‘Connect’ using the arrows on your keyboard or press connect. Please note it will take a few minutes for you to connect to Telstra 3G.
