

English tutoring schedule

Term 2

What to bring to tutorials:

Assessment drafts or planning sheets, class work or homework activities

Tutorials provide targeted support to students in their study of English, and therefore it is important that students come prepared with the work they need help with. Students can approach their class teacher or the HOD of English PRIOR to tutorials if they would like some guidance to identify the key areas they should focus on working to improve i.e. paragraphing, organisation of ideas etc. Once key focus areas for improvement are identified, students will be able to engage in more purposeful tutorial sessions and assessment support.
